

Press Release 27 March 2008

On March 27th the International Medical and Diagnostic Center – Multispecialty Clinic (IMDC MC) was declared open. The event was held at Dharubaaruge. This center is the phase one of the grand plan by SIMDI Company to open an international Hospital in Addu Atoll, which will be completed at the end of the year 2008.

IMDC MC will be bring down specialists from various faculties of medicine for consultations and operations for the patients who do not have the capacity in terms of financial and health to travel abroad for their much needed treatments.

These specialists who will be brought down by IMDC will have the expertise which are not available in the Maldivian health community.

IMDC will be also giving the EECP therapy (External Enhanced Counterpulsation), which is a modern non-invasive treatment for heart patients, thus cutting the cost and associated difficulties of migrating to foreign countries for the treatment.

The IMDC MC will be opened from Saturday to Thursday between 930am to 930pm and is located on the 2nd floor of Bodufenvaluge', Raidhebai magu. For more information please contact IMDC MC front desk. The contacts are as follows:

Tel: +960 330 6070
Fax: +960 330 7090
